-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Information Disclosure Statement

1. The listing of references in the Search Report is not considered to be an information disclosure statement (IDS) complying with 37 CFR 1.98. 37 CFR 1.98(a)(2) requires a legible copy of: (1) each foreign patent; (2) each publication or that portion which caused it to be listed; (3) for each cited pending U.S. application, the application specification including claims, and any drawing of the application, or that portion of the application which caused it to be listed including any claims directed to that portion, unless the cited pending U.S. application is stored in the Image File Wrapper (IFW) system; and (4) all other information, or that portion which caused it to be listed. In addition, each IDS must include a list of all patents, publications, applications, or other information submitted for consideration by the Office (see 37 CFR 1.98(a)(1) and (b)), and MPEP § 609.04(a), subsection I. states, "the list ... must be submitted on a separate paper." Therefore, the references cited in the Search Report have not been considered. Applicant is advised that the date of submission of any item of information or any missing element(s) will be the date of submission for purposes of determining compliance with the requirements based on the time of filing the IDS, including all "statement" requirements of 37 CFR 1.97(e). See MPEP § 609.05(a).

2. Note: Only the U.S. Patent documents listed in the IDS are considered by the examiner because neither the foreign patent documents nor non-patent literature were submitted for consideration as required by 37 CFR 1.98(a)(2) as stated above.

Claim Objections

3. Claim 1 is objected to because of the following informalities: on line 6, the term “a packet-switched network” should be changed to --- the packet-switched network --- because it refers to a packet-switched network as defined on line 3. Appropriate correction is required.

Claim Rejections - 35 USC § 101

4. 35 U.S.C. 101 reads as follows:

Whoever invents or discovers any new and useful process, machine, manufacture, or composition of matter, or any new and useful improvement thereof, may obtain a patent therefor, subject to the conditions and requirements of this title.

5. Claims 1-3 are rejected under 35 U.S.C. 101 because the claimed invention is directed to non-statutory subject matter. Claims 1-3 are drawn to functional descriptive material NOT claimed as residing on a computer-readable medium. See MPEP 2106.01 [R-5] (Computer-Related Nonstatutory Subject Matter).

Claims 1-3, while defining a computer program product comprising a *computer usable medium*, do not define a “computer-readable medium” and are thus non-statutory for that reason. The examiner suggests amending the claims to embody the program on “computer-readable medium” in order to make the claims statutory. It is suggested to the applicant to change the phrase “a computer program product comprising a computer usable medium” to --- a computer program product encoded on a computer readable medium.

Conclusion

6. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure: Schuster et al. (US 6,360, 271 B1) and Ohlsson et al. (US 6,452,950 B1).
